**SCHEDULE TO CERTIFICATE TES-004150-16-02**

**General description of equipment or protective system included within the scope of this certificate**

DRiBOX is a weatherproof plastic enclosure which houses four way mains extension leads to power mains operated electrical equipment in an outdoor environment.

The equipment is available in two models, 285 and 330 which relate directly to their size in millimetres. The cable ports and lid sealing methods are identical for both models.

**Photographic record of equipment tested**
